- My teachers and teaching assistants work hard to make sure the work matches what I can do
- Homework helps me learn and remember
- Book corners are full of books that link to the topics
- Displays have information that helps me learn
- The adults make sure the classroom is quiet so we can concentrate on our work.
- My work challenges me and I like it!
- My parents know what I am learning because my teacher sends home the curriculum overview. We talk about my topics, sometimes we go to the library and get some books, or we might go to a museum at the weekend.

How do you learn best?

Here are a few ways to learn. All of them are important:

- Talk in a group or with a partner
- An adult shows you, then you try for yourself
- Repeat a skill until you are very fluent e.g. times tables
- Visit a place linked to your learning
- Work through some questions quietly

There are many other ways....
